

PromiseOne Bank takes pride in consistently earning 5 Star rating in 2024 on Bauer Financial

PromiseOne Bank maintained 5 Star rating on Bauer Financial in 2024!

Bauer Financial is an independent bank rating and research firm that assesses the financial strength and performance of banks and credit unions in the United States. The firm assigns star ratings ranging from 1 to 5, with 5 stars being the highest rating.

A 5-star rating from Bauer Financial indicates that the bank is considered to have excellent financial strength and performance. This suggests that the bank is stable, well-capitalized, and has a strong track record of sound financial management. Customers often use these ratings as a factor in evaluating the safety and reliability of a bank when considering where to deposit their money.

It's important to note that while a 5-star rating is generally a positive indicator, it's advisable to consider other factors as well, such as the range of services offered, customer service, and any specific needs or preferences you may have as a consumer. Additionally, ratings may change over time as the financial health of a bank evolves.

STAR RATING DEFINITIONS:

Superior (These institutions are recommended by Bauer.)

Excellent (These institutions are recommended by Bauer.)

Good

Adequate

Problematic

Troubled

Our lowest rating

Credit Unions that either: have less than \$1.5 million in assets, are not NCUA insured or are too new to rate.

Institution has failed and/or is operating under FDIC conservatorship.
